DELIVERY OF GOODS—GIVING A CREDIT.

John E. Van Name ast Daniel D Connver.

AFFEAL.—The action in Court below was to recover e.5 baskles corn, a lived to have been soid to Mr. C. in April, 1859, to be paid for in cash (48,443 59) but not paid for, and also me the ground of wrong statements as to ability to pay at time of purchase, which latter was denied, Mr. C. alleging that he had \$20,000 with of fleur and grain at and on the way to England, and stopped payment after this purchase, on account of advices from there of a disastrous decline in prices.

The Court on the trial below charged the cury that it was for them to consider, from the evidence: Is. Was the contract in question the ene usually made between dealers in corn, as testified to by the winness Me link [Pisintifi resides in Now-James, and the corn was sent to and asie made by Beaic, Melick & De Witt, and the corn shipped to Engand by Mr. Conover) where the terms are cash on derivery, but the understanding is that the bill is not presented, nor payment expected for two or three or four or more days after delivery? er second. Was theejorn to be paid for upon delivery or the sale to be vide! It it was the first, it was in law a sale upon credit and, upon the final delivery of the goods, the title passed to the defendant, and he became liable to pay to plaintiff the price of the soods, but not liable in this form of action, that is to return the specific article; and the verdict must be for the defendant, unless the Jury consider that fraud had been exercised in the purchase by wrong representations as to ability to pay, &c.; if they consider, on the other hard, the second point, that the payment was to be on delivery, or the second was a presented, Mr. Noves for plaintiff and Mr. O'Conor for defendant, and the present appeal is made by praintiff. Argument was presented, Mr. Noves for plaintiff and Mr. O'Conor for defense.

There was a large business done in Eric and Reading to-day, but the market generally was quiet, and fell off from the opening prices. The sales of Eris were about 7,000 shares, opening at 531, touching 54, and closing at 53}, which was the closing price of Saturday. The September business continues to be very large. Reading fell off 1 P cent., Central, without transactions, was about 991; it sold at that price at suction to-day. Panema was without much change. The Western shares are buoyant, especially Galena and Chicago and Cleveland and Pittsburg. The former advanced to 115 bid, an improvement of 2 & cent, and the latter to 71½ bid—an improvement of 1¼ ₱ cent. Illinois Central, 96. Chicago and Rock Island, 977, &c. Cleveland and Toledo was in fair demand and firm at 874. The late advance in Galena and Chicago is

predicated on the very large receipts of that road compared with its cost, and the impression that there will be at or about the time of the next dividend an extra dividend in stock of the surplus earnings, which are now stated to be \$530,000. The August receipts were \$205,800 against \$104,100, or in round numbers were \$205,800 against \$104,100, or in round hands.

Cumberland aild Nicaragua were without important change Railroad Bonds sold to the extent of \$100,000, closing at about previous prices. State Stocks are not active and rather heavy.

The Exchange market is quiet. The demand for the

steamer has been moderate, while the supply of commercial bills is increasing. There are also some Canada Bank Bills on the market, and some bills from the South. Sterling is 9] \$\overline{\pi}\$ of 10 \$\overline{\psi}\$ cent, with few or no sales at the high limit. First-class signatures sold to-

The ranks by the present weekly statement show a continuance to the general contractions which has been going on for a few weeks post. As was anticipated, the specie line shows a falling off, and the aggregate is but a trifle above twelve millions. We bave, however, about two-and a-quarter midious of gold at hand which does not appear in the statement, while the shipments of the week prom se to be moderate. The impression among operators in the street is very general that the present statement shows the smallest amount of gold that we shall have during the season, and such is the feeling of some of the bank officers. The contraction has been quite general, although the Manhattan is a marked exception, sho ving an increase of leans of \$30,000 and of deposits of \$30,000. The Commerce shows an increase of \$150,000 in loans and a decrease of deposits of \$220,000 The Union has but \$200,000 deposits, and the American Exchange \$260,000, and the latter has reduced loads \$150,000. Mr. H. B. Munn of Wisconsin advertises in our columns to locate and purchase lands in Wisconsin. He can be found at the office of Messrs. Burdett, Da-

vis & Main, No. 27 William-st. The holders of the First Mortgage Bonds of the Maysville and Lexington Road having commenced proceedings of foreclosure, which the stockholders did not oppose, the holders of the Second Mortgage Bonds have obtained an adjournment of the question to November, when a special Court will be held to try

he case. They had put in a plea of usury. The telegraph brings us intelligence from Springfield, Ill., that the Chicago, Alton and St. Louis Railroad has been leased for a term of twenty years to Hamilton Spencer, late Vice-President of the Company, at a consideration of \$600,000 per annum, instuding the interest on the floating debt of the Company. This action has undoubtedly been taken to save the property from judgment creditors. It cannot be, however, that such a lease as this could stand if any stockholder chooses to contest it. If a Board of Directors has the legal authority to lease a road for twenty years, thus binding their successors for that long period, they then possess the same right for one hundred years; and if they have right to allengte the property of the shockholders for that period for \$000,000 per annum, they equally have the right to do it for \$100,000. A Board of Dissilors is will elected for any cuch purpose, and when such action is recorded to it certainly her a had look. If the Direct ore of a railroad can legally make each a lesso as this, and the stockholders have no centrally, the whole cult road property of the country to in journedy, so it needs

principles to make a lease to a confederate and source fortunes for each. In the present case, however, the s'ockbollers are not numerous, and we procume have all agreed to the arrangement. Our remarks above are general.

The following statement will show the amount of foreign goods entered at the port of New-York for the week as compared with the corresponding week of

As compared with the same period of last year the table shows an increase of \$5,500,000. The receipts from California since 1st January bave been \$27,339,945 on manifests.

The business of the Clearing-House to-day was \$21,562,600.

The Circular of Messrs, Marie & Kanz for the stemmer says:

Dequis nos derriers avis, le marché a passé par des fuctuations de peu d'importance, et nos octes d'aujonné hui as différent que peu de celles du 4 courant. Le souvenieur a cite très limité, sait eur les actions de l'Étie Railrosal. L'argent est toujours en bonne demande, mais à un degré moits prinoncé que pridant les premiers jours de la semaine précédente. Nous remarquous une réduction deux le chiffe des dernières expuditions d'espèces. Le perspective à l'égaid des récoltes transatlantiques porte à croire que nes céreales remplayment tres procèssement le numéraire comme moyen de remise.
